

STUDY ABROAD 2025

MUNICH

Intro to Sustainability

CHE 4733/6733 • July 1 - July 31, 2025 • Program cost: \$4,799

Unlock a world of opportunity in Germany! Join MSU STEM students for this incredible chance to study abroad. Delve into the principles of sustainability in the food, energy, and water nexus as you tour cutting-edge industrial facilities and see sustainability in action. Immerse yourself in German history and culture, from vibrant cities to picturesque landscapes. Don't miss your chance to make unforgettable memories while gaining a global perspective on sustainability!

- Open to undergraduate and graduate students in STEM majors.
- Others can apply with instructor's consent.
- Course is taught entirely in English by MSU faculty.
- Prereqs: Chemistry I and Physics I.
- Out-of-state students pay in-state tuition.
- Program cost includes OSA application fee, lodging, health & emergency assistance insurance, industry tours and some group excursions and cultural activities.
- Tuition/fees, OSA software fee, travel to/from Germany, personal travel and most meals are not included.
- This course satisfies the Overseas requirement for the Global Engineering Leadership (GENL) minor.
