

STUDY ABROAD 2026

MUNICH

Intro to Sustainability

CHE 4733/6733 • July 1 - July 31, 2026 • Program cost: \$4,799

Unlock a world of opportunity in Germany! Delve into the principles of sustainability as you tour cutting-edge industrial facilities and see sustainability in action. Immerse yourself in German history and culture, from vibrant cities to picturesque German Alps landscapes. Don't miss your chance to make unforgettable memories while gaining a global perspective on sustainability!

- Includes day trips to Salzburg (Austria), Neuschwanstein Castle, Linderhof Palace, Nuremberg, Dachau concentration camp, BMW plant trip, Lake Eibsee, Deutsches Museum, and other local attractions.
- Select group meals in Bavarian restaurants in traditional settings.
- Prereqs: Chemistry I and Physics I.
- Out-of-state students pay in-state tuition.
- Program cost includes OSA application fee, lodging, health and emergency assistance insurance, industry tours, and some group excursions and cultural activities.
- Tuition/fees, OSA software fee, travel to/from Germany, personal travel, and most meals are not included.
- This course satisfies the Overseas requirement for the Global Engineering Leadership (GENL) minor.
