

STUDY ABROAD 2027

MUNICH

Intro to Sustainability

CHE 4733/6733 • July 1 - July 31, 2027 • Program cost: \$4,850

Unlock a world of opportunity in Germany! Delve into the principles of sustainability as you tour cutting-edge industrial facilities and see sustainability in action. Immerse yourself in German history and culture, from vibrant cities to picturesque German Alps landscapes. Don't miss your chance to make unforgettable memories while gaining a global perspective on sustainability!

- Includes day trips to Salzburg (Austria), Neuschwanstein Castle, Nymphenburg Palace, Nuremberg, Dachau concentration camp, BMW or Audi plant tour, Lake Eibsee, Deutsches Museum and other local attractions.
- At least 6 group meals (dinner/lunch) and 2 light meals/snacks.
- Prereqs: Chemistry I and Physics I (or instructor consent).
- Out-of-state students pay in-state tuition.
- Program cost includes OSA application fee, lodging, health and emergency assistance insurance, industry tours and group excursions and cultural activities.
- Tuition/fees, OSA software fee, travel to/from Germany, personal travel, and most meals are not included.
- This course satisfies the Overseas requirement for the Global Engineering Leadership (GENL) minor.
