

STUDY ABROAD 2027

ROME

Intro to Programming

CSE 1284 • July 10 - August 8, 2027 • Program cost: \$5,799

Intro to Programming in Rome is a unique opportunity to spend four weeks in Italy with other Mississippi State University students and learn problem-solving skills and to read and write Python. MSU students will reside in comfortable and modern facilities at the University of Rome, Tor Vergata campus. Besides numerous adventures in the Eternal City of Rome, the group will travel to Pompei, climb Mount Vesuvius, and spend a few nights in Florence. Students will also have an option to travel for a few days on their own to the destination of their choice.

- Open to all MSU students.
- Non-engineering students can apply with instructor's consent.
- Course is taught in English by MSU faculty.
- Prereqs: MA 1313 College Algebra.
- Out-of-state students pay in-state tuition.
- Program cost includes lodging, application fees, health insurance, group tours, admission fees, and some other activities, including a weekend trip to Florence.
- Tuition, travel to/from Italy, any personal travel, local transportation and most meals are not included.
- This course satisfies the Overseas requirement for the Global Engineering Leadership (GENL) minor.
