Energy Certificate Application Form

Name: _____ Net ID: _____ MSU ID: _____

Major: _____ Email Address: _____

This program has been designed for engineering students who plan to pursue a career in energy related fields. The Energy Certificate utilizes courses in most MSU engineering programs plus a required course in alternate energy sources. Students who successfully complete the Energy Certificate will have acquired significant energy engineering expertise in their related engineering disciplines as well as an interdisciplinary overview of energy and sustainable energy concepts.

To meet the requirements for the Energy Certificate, a student must complete at least 15 hours of courses with a grade of “C” or better as designated in the Level I, Level II, and Level III categories listed below. Two of the Level I, II, or III courses must be above the degree requirements of the student.

Courses taken you wish to apply toward certificate:

Course Level	Course Number	Course Title
Level I (6 hours)		
Level II (3 hours)	ME 4353	Alternate Energy Sources
Level III (6 hours)		

Student Signature

Date

Complete the application and submit it to the Committee of the Energy Certificate Program (Dr. Heejin Cho at cho@me.msstate.edu and Dr. Masoud Karimi at karimi@ece.msstate.edu).
